

Dear Store Manager or Buyer,

Please consider adding a new product line from Allergaroo to your store.

Allergaroo offers a line of delicious, ready-made dishes which are free of the eight most common food allergens: They are Gluten Free, Milk Free, Soy Free and free of eggs, peanuts, tree nuts, fish and shellfish. They are incredibly convenient because they come in a microwaveable pouch and they are shelf-stable – no need for refrigeration! Allergaroo products include only all natural ingredients that are not genetically modified. Products include Spaghetti with Tomato Sauce, Chili Mac and Spyglass Noodles.

For more information on ordering, please visit www.allergaroo.com or call 1-417-799-1875.

Thank you for your consideration.
